

Illinois REALTORS® RESIDENTIAL REAL PROPERTY DISCLOSURE REPORT (765 ILCS 77/35)

NOTICE: THE PURPOSE OF THIS REPORT IS TO PROVIDE PROSPECTIVE BUYERS WITH INFORMATION ABOUT MATERIAL DEFECTS IN THE RESIDENTIAL REAL PROPERTY BEFORE THE SIGNING OF A CONTRACT. THIS REPORT DOES NOT LIMIT THE PARTIES' RIGHT TO CONTRACT FOR THE SALE OF RESIDENTIAL REAL PROPERTY IN "AS IS" CONDITION. UNDER COMMON LAW, SELLERS WHO DISCLOSE MATERIAL DEFECTS MAY BE UNDER A CONTINUING OBLIGATION TO ADVISE THE PROSPECTIVE BUYERS ABOUT THE CONDITION OF THE RESIDENTIAL REAL PROPERTY EVEN AFTER THE REPORT IS DELIVERED TO THE PROSPECTIVE BUYER. COMPLETION OF THIS REPORT BY THE SELLER CREATES LEGAL OBLIGATIONS ON THE SELLER; THEREFORE SELLER MAY WISH TO CONSULT AN ATTORNEY PRIOR TO COMPLETION OF THIS REPORT.

Property Address: 5105 Cheltenham Court
 City, State & Zip Code: O'Fallon, IL 62269
 Seller's Name: Khadijah Henry

This Report is a disclosure of certain conditions of the residential real property listed above in compliance with the Residential Real Property Disclosure Act. This information is provided as of 05/22/2023. The disclosures herein shall not be deemed warranties of any kind by the seller or any person representing any party in this transaction.

In this form, "aware" means to have actual notice or actual knowledge without any specific investigation or inquiry. In this form, a "material defect" means a condition that would have a substantial adverse effect on the value of the residential real property or that would significantly impair the health or safety of future occupants of the residential real property unless the seller reasonably believes that the condition has been corrected.

The seller discloses the following information with the knowledge that even though the statements herein are not deemed to be warranties, prospective buyers may choose to rely on this information in deciding whether or not and on what terms to purchase the residential real property.

The seller represents that to the best of his or her actual knowledge, the following statements have been accurately noted as "yes" (correct), "no" (incorrect), or "not applicable" to the property being sold. If the seller indicates that the response to any statement, except number 1, is yes or not applicable, the seller shall provide an explanation in the additional information area of this form.

| 16. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware of unsafe concentrations of or unsafe conditions relating to asbestos on the premises. |
| 17. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware of unsafe concentrations of or unsafe conditions relating to lead paint, lead water pipes, lead plumbing pipes or lead in the soil on the premises. |
| 18. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware of mine subsidence, underground pits, settlement, sliding, upheaval, or other earth stability defects on the premises. |
| 19. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware of current infestations of termites or other wood boring insects. |
| 20. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware of a structural defect caused by previous infestations of termites or other wood boring insects. |
| 21. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware of underground fuel storage tanks on the property. |
| 22. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware of boundary or lot line disputes. |
| 23. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I have received notice of violation of local, state or federal laws or regulations relating to this property, which violation has not been corrected. |
| 24. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | I am aware that this property has been used for the manufacture of methamphetamine as defined in Section 10 of the Methamphetamine Control and Community Protection Act. |

Note: These disclosures are not intended to cover the common elements of a condominium, but only the actual residential real property including limited common elements allocated to the exclusive use thereof that form an integral part of the condominium unit.

Note: These disclosures are intended to reflect the current condition of the premises and do not include previous problems, if any, that the seller reasonably believes have been corrected.

If any of the above are marked "not applicable" or "yes", please explain here or use additional pages, if necessary: #1. Primary Residence _____

RESIDENTIAL REAL PROPERTY DISCLOSURE ACT

ARTICLE 2: DISCLOSURES

765 ILCS 77/5 *et seq.*

Section 5. Definitions: As used in this Act, unless the context otherwise requires the following terms have the meaning given in this section:

“Residential real property” means real property improved with not less than one nor more than four residential dwelling units: units in residential cooperatives; or, condominium units including the limited common elements allocated to the exclusive use thereof that form an integral part of the condominium unit. The term includes a manufactured home as defined in subdivision (53) of Section 9-102 of the Uniform Commercial Code that is real property as defined in the Conveyance and Encumbrance of Manufactured Homes as Real Property and Severance Act.

“Seller” means every person or entity who:

- (1) is a beneficiary of an Illinois land trust; or
- (2) has an interest, legal or equitable, in residential property as:
 - i. an owner;
 - ii. a beneficiary of a trust;
 - iii. a beneficiary pursuant to testate disposition, intestate succession, or a transfer on death instrument; or
 - iv. a contract purchaser or lessee of a ground lease.

“Seller” does not include a party to a transfer that is exempt under Section 15.

“Prospective buyer” means any person or entity negotiating or offering to become an owner or lessee of a ground lease of residential real property by means of a transfer for value to which this Act applies.

“Contract” means a written agreement by the seller and prospective buyer that would, subject to the satisfaction of any negotiated contingencies, require the prospective buyer to accept a transfer of the residential real property.

Section 10. Applicability. Except as provided in Section 15, this Act applies to any transfer by sale, exchange, installment land sale-contract, assignment of beneficial interest, lease with an option to purchase, ground lease or assignment of ground lease of residential real property.

Section 15. Seller Exemptions. A seller in any of the following transfers is exempt from this Act, regardless of whether a disclosure report is delivered:

- (1) Transfers pursuant to court order, including, but not limited to, transfers ordered by a probate court in administration of an estate, transfers between spouses resulting from a judgment of dissolution of marriage or legal separation, transfers pursuant to an order of possession, transfers by a trustee in bankruptcy, transfers by eminent domain and transfers resulting from a decree for specific performance.
- (2) Transfers from a mortgagor to a mortgagee by deed in lieu of foreclosure or consent judgment, transfer by judicial deed issued pursuant to a foreclosure sale to the successful bidder or the assignee of a certificate of sale, transfer by a collateral assignment of a beneficial interest of a land trust, or a transfer by a mortgagee or a successor in interest to the mortgagee’s secured position or a beneficiary under a deed in trust who has acquired the real property by deed in lieu of foreclosure, consent judgment or judicial deed issued pursuant to a foreclosure sale.
- (3) Transfers by a fiduciary in the course of the administration of a decedent’s estate, guardianship, conservatorship, or trust. As used in this paragraph, “trust” includes an Illinois land trust.
- (4) Transfers from one co-owner to one or more other co-owners.
- (5) Transfers from a decedent pursuant to testate disposition, intestate succession, or a transfer on death instrument.
- (6) Transfers made to a spouse, or to a person or persons in the lineal line of consanguinity of one or more of the sellers.
- (7) Transfers from an entity that has taken title to residential real property from a seller for the purpose of assisting in the relocation of the seller, so long as the entity makes available to all prospective buyers a copy of the disclosure report furnished to the entity by the seller.
- (8) Transfers to or from any governmental entity.
- (9) Transfers of newly constructed residential real property that has never been occupied. This does not include rehabilitation of existing residential real property.

Section 20. Disclosure Report Requirements. A seller of residential real property shall complete all items in the disclosure report described in Section 35. The seller shall deliver to the prospective buyer the written disclosure report required by this Act before the signing of a contract.

Section 25. Liability of seller.

(a) The seller is not liable for any error, inaccuracy, or omission of any information delivered pursuant to this Act if (i) the seller had no knowledge of the error, inaccuracy, or omission, (ii) the error, inaccuracy, or omission was based on a reasonable belief that a material defect or other matter not disclosed had been corrected, or (iii) the error, inaccuracy, or omission was based on information provided by a public agency or by a licensed engineer, land surveyor, structural pest control operator, or by a contractor about matters within the scope of the contractor’s occupation and the seller had no knowledge of the error, inaccuracy, or omission.

(b) The seller shall disclose material defects of which the seller has actual knowledge.

(c) The seller is not obligated by this Act to make any specific investigation or inquiry in an effort to complete the disclosure statement.

Section 30. Disclosure report supplement. If, prior to closing, any seller becomes aware of an error, inaccuracy, or omission in any prior disclosure report or supplement after delivery of that disclosure report or supplement to a prospective buyer, that seller shall supplement the prior disclosure report or supplement with a written supplemental disclosure, delivered by any method set forth in Section 50.

Section 35. Disclosure report form. . . . [omitted]

Section 40. Material defect.

(a) If a seller discloses a material defect in the Residential Real Property Disclosure Report, including a response to any statement that is answered “yes” except numbers 1 and 2, and, in violation of Section 20, it is delivered to the prospective buyer after all parties have signed a contract, the prospective buyer, within 5 business days after receipt of that report, may terminate the contract or other agreement with the return of all earnest money deposits or down payments paid by the prospective buyer in the transaction without any liability to or recourse by the seller.

(b) If a seller discloses a material defect in a supplement to this disclosure report, the prospective buyer shall not have a right to terminate unless:

(i) the material defect results from an error, inaccuracy, or omission of which the seller had actual knowledge at the time the prior disclosure was completed and signed by the seller; (ii) the material defect is not repairable prior to closing; or (iii) the material defect is repairable prior to closing, but within 5 business days after the delivery of the supplemental disclosure, the seller declines, or otherwise fails to agree in writing, to repair the material defect.

(c) The right to terminate the contract, however, shall no longer exist after the conveyance of the residential real property. For purposes of this Act the termination shall be deemed to be made when written notice of termination is delivered to at least one of the sellers by any method set forth

in Section 50, at the contact information provided by any seller or indicated in the contract or other agreement. Nothing in subsection (a) or (b) shall limit the remedies available under the contract or Section 55.

Section 45. Other Law. This Act is not intended to limit remedies or modify any obligation to disclose created by any other statute or that may exist in common law in order to avoid fraud, misrepresentation, or deceit in the transaction.

Section 50. Delivery of disclosure report. Delivery of the Residential Real Property Disclosure Report provided by this Act shall be by:

(1) personal delivery or facsimile, email, or other electronic delivery to the prospective buyer at the contact information provided by the prospective buyer or indicated in the contract or other agreement;

(2) depositing the report with the United States Postal Service, postage prepaid, first class mail, addressed to the prospective buyer at the address provided by the prospective buyer or indicated on the contract or other agreement; or

(3) depositing the report with an alternative delivery service such as Federal Express or UPS, delivery charges prepaid, addressed to the prospective buyer at the address provided by the prospective buyer or indicated on the contract or other agreement.

For purposes of this Act, delivery to one prospective buyer is deemed delivery to all prospective buyers. Delivery to an authorized individual acting on behalf of a prospective buyer constitutes delivery to all prospective buyers. Delivery of the Report is effective upon receipt by the prospective buyer. Receipt may be acknowledged on the Report, in an agreement for the conveyance of the residential real property, or shown in any other verifiable manner.

Section 55. Violations and damages. If the seller fails or refuses to provide the disclosure report prior to the conveyance of the residential real property, the prospective buyer shall have the right to terminate the contract. A seller who knowingly violates or fails to perform any duty prescribed by any provision of this Act or who discloses any information on the Residential Real Property Disclosure Report that the seller knows to be false shall be liable in the amount of actual damages and court costs, and the court may award reasonable attorney's fees incurred by the prevailing party.

Section 60. Limitation of Action. No action for violation of this Act may be commenced later than one year from the earlier of the date of possession, date of occupancy or date of recording of an instrument of conveyance of the residential real property.

Section 65. Disclosure Report Form; Contents; Copy of Act. A copy of Sections 5 through 65 of Article 2 of this Act, excluding Section 35, must be printed on or as a part of the Residential Real Property Disclosure Report form.

MEASUREMENT OF SQUARE FOOTAGE DISCLOSURE

Contract Dated: _____

Property Address: 5105 Cheltenham Court, O'Fallon, IL 62269

By and between: Khadijah Henry, (“Seller”)

and _____, (“Buyer”).

BUYER AND SELLER EACH ACKNOWLEDGE AND AGREE THAT BROKER HAS ADVISED THEM THAT BROKER: (1) is not an expert in measuring real estate structures or dwellings, (2) does not independently measure the total square footage of the properties that it markets for sale and/or shows to buyers, and (3) makes no opinion, representation, or warranty as to the accuracy of any measurement provided to Buyer or Seller, or relied upon by either.

To the extent that BROKER provides or shares information about total square footage of properties, then: (1) such information was received from one or more third-party sources, (2) is only an approximation, and (3) has not been verified by BROKER. There are several alternate standards relied upon for calculating total square footage, measurements, and the available data about total square footage can vary depending upon many variables, including but not limited to, the data source, the measurement standard that was used, the type of measurement device that was used, the date of measurement, and any obstructions, impediments or other limitations on accessibility or measurement points. One common source for total square footage is public information provided by the county assessor’s office. However, the county assessor’s office does not typically independently verify or warrant the accuracy of any such information. If you wish to have verifiable and accurate information about the total square footage of a particular property, you should retain a qualified professional appraiser to measure the property according to the measurement standard that you and/or the appraiser deem appropriate. The price per square foot for any property is a calculation based upon, among other things, total square footage, so price per square foot also is only an approximation and is subject to the same uncertainties and limitations described in this disclosure. In the event that any contract for the purchase or sale of real estate is dependent on or calculated based upon a square footage amount, the parties should acknowledge and agree upon the actual square footage to be used for such purposes.

ILLINOIS REALTORS® DISCLOSURE OF INFORMATION AND ACKNOWLEDGEMENT LEAD-BASED PAINT AND/OR LEAD-BASED PAINT HAZARDS

Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

Property Address: 5105 Cheltenham Court, O'Fallon, IL 62269

Seller's Disclosure (initial)

(a) Presence of lead-based paint and/or lead-based paint hazards (check one below):

Known lead-based paint and/or lead-based paint hazards are present in the housing (explain):

Seller has no knowledge of lead-based paint and/or lead-based paint hazards in the housing.

(b) Records and Reports available to the seller (check one below):

Seller has provided the purchaser with all available records and reports pertaining to lead-based paint and/or lead-based paint hazards in the housing (list documents below): _____

Seller has no reports or records pertaining to lead-based paint and/or lead-based paint hazards in the housing.

Purchaser's Acknowledgment (initial)

(c) Purchaser has received copies of all information listed above.

(d) Purchaser has received the pamphlet *Protect Your Family From Lead in Your Home*.

(e) Purchaser has (check one below):

Received a 10-day opportunity (or mutually agreed upon period) to conduct a risk assessment or inspection of the presence of lead-based paint or lead-based paint hazards; or

Waived the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards.

Agent's Acknowledgment (initial)

(f) Agent has informed the seller of the seller's obligations under 42 U.S.C. 4852d and is aware of his/her responsibility to ensure compliance.

Certification of Accuracy

The following parties have reviewed the information above and certify to the best of their knowledge, that the information they have provided is true and accurate.

Radon Testing Guidelines for Real Estate Transactions

Because of the unique nature of real estate transactions, involving multiple parties and financial interests, the U.S. Environmental Protection Agency (U.S. EPA) designed special protocols for radon testing in real estate transactions. The Illinois Emergency Management Agency (IEMA)-Division of Nuclear Safety has adapted these protocols to conform with its radon regulations. These options are listed in simplified form in the table below.

Recommendations for Real Estate Transactions

IEMA strongly recommends ALL homebuyers have an indoor radon test performed prior to purchase or taking occupancy, and mitigated if elevated levels are found. It is not in the best interest of the buyer or seller to rely on a radon measurement performed by anyone other than a licensed measurement professional or technician. Elevated radon concentrations can easily be reduced by a qualified, licensed radon mitigator.

Test Options for Real Estate Transactions

Conduct a short-term radon test in each of the lowest structural areas of the home. For example, if the house has one or more of the following foundation types, e.g., basement, crawl space, slab-on-grade, a test in each area is required for licensed professional measurements.

What to Look for in Short-Term Real Estate Testing Options		
Option	Detector Location	What to do Next
Simultaneous Two short-term tests, 48 hours or longer, performed at the same time.	Two detectors, four inches apart, in each of the lowest structural areas suitable for occupancy.	Fix the home if the average of the two tests is 4 picoCuries per liter (pCi/L) or more.
Continuous Monitor Test One test, 48 hours or longer, performed with an active continuous monitor that integrates and records radon levels hourly.	Continuous monitor placed in each of the lowest structural area suitable for occupancy.	Fix the home if the average radon level is 4 pCi/L or more.

Short-term tests may last between two and 90 days. Most last between two and seven days. Tests between seven and 90 days are usually impractical for real estate transactions. Examples of short-term detectors used in real estate testing include: activated charcoal canisters, charcoal liquid scintillation vials, electret chambers and continuous radon monitors.

If your tests don't agree, contact the IEMA-Division of Nuclear Safety

If your simultaneous or sequential tests are not in agreement (or if you're not sure whether or not they agree), contact the IEMA-Division of Nuclear Safety Radon Program or your licensed radon measurement professional.

When do you average radon test results?

The only time radon test results can be averaged is when two test results are placed simultaneously. Test results from different areas, such as above the crawl space and in the basement, are considered two different tests. Results are each independent of the other and are reported independently, such as basement result of 4.2 pCi/L and family room over crawl space result of 6.1 pCi/L. With an elevated radon level in any one of the lowest structural areas, the recommendation is to fix the house.

Interference with successful completion of a radon measurement is illegal in Illinois .

IEMA-Division of Nuclear Safety Recommendations for Real Estate Radon Measurements

- Hire a licensed radon measurement professional.
- Be sure that IEMA-Division of Nuclear Safety Radon Program radon testing protocols are followed.
- Contact the IEMA-Division of Nuclear Safety Radon Program if you are uncertain about anything regarding radon testing. www.radon.illinois.gov

Disclosure of Radon Information

The Illinois Radon Awareness Act and the Illinois Real Property Disclosure Act requires that a seller of a home disclose information if aware of unsafe concentrations of radon in the home. The acts do not require that testing or remediation work be conducted. However, many relocation companies and lending institutions, as well as home buyers, request a radon test when purchasing a house. Sellers and brokers are cautioned to err on the side of full disclosure of material facts prior to entering into a purchase agreement.

When Testing

Be aware that any test lasting less than a week requires closed-house conditions. Closed-house conditions mean keeping all windows closed, keeping doors closed except for normal entry and exit, and not operating fans or other machines which bring air in from outside (except for fans that are part of a radon reduction system, or small exhaust fans that operate for only short periods of time).

- Before Testing: Begin closed-house conditions at least 12 hours before the start of the short-term test.
- During Testing: Maintain closed-house conditions during the entire duration of the short term test, especially for tests less than one week in duration. Operate home heating or cooling systems normally during the test. For tests lasting less than one week, only operate air conditioning units that recirculate interior air.

Note that professional measurement licensees are required to post Radon Measurement in Progress Notifications at every building entry.

Where the test should be conducted

Place the detector or detectors in each lowest area suitable for occupancy, such as:

- a family room, living room, den, playroom, bedroom, workshop, or exercise room;
- in the lowest level suitable for occupancy, even if isn't currently used but could be, without renovating.

For instance, if the house has one or more of the following foundation types, e.g., basement, crawl space, slab-on-grade, a test should be performed in the basement and in at least one room over the crawlspace and slab-on-grade area. If an elevated radon concentration is found and confirmed in one of these areas, fix the house.

DO NOT MEASURE:

- in the kitchen, laundry room and bathroom (because fan systems and humidity may affect some detectors); or
- in crawl spaces, on floor or wall cracks, or right next to a sump pump, as this may cause a false high reading.

The detector should be placed:

- in an area where it will not be disturbed;
- at least three feet from doors and windows to the outside;
- at least one foot from exterior walls;
- 20 inches to 6 feet from the floor;
- at least four inches away from other objects horizontally and directly above the detector;
- away from drafts; and
- four feet from heat, fireplaces, furnaces, and away from direct sunlight and areas of high humidity.

If the test results show radon levels above 4 pCi/L

Contact the IEMA-Division of Nuclear Safety Radon Program. Staff can provide names and addresses of professional radon mitigators who are trained to reduce radon concentrations. We also recommend that you see our web site www.radon.illinois.gov or contact the Radon Program for a copy of our brochure, *IEMA-Division of Nuclear Safety Guide to Radon Mitigation*.

After a radon reduction system is installed

Perform an independent short-term test to ensure that the reduction system is effective. Make sure the system is operating during the entire test.

The IEMA-Division of Nuclear Safety Radon Program can provide:

- Information about radon and radon testing;
- Names of licensed radon measurement professionals;
- Names of licensed radon mitigation professionals trained to reduce radon.
